In Great Aerial Warfare to Be Undertaken by British in Bombarding German Cities, Efforts Will Be Made, as Far as Possible, Not to Kill Women and Children; Greatly Regrets Reprisals Necessary.

I ondon, ENG. Oct 4.—'Applying hobe. We also bombarded his billets, to the principle of an eye for trains, transports and railway stations, causing him the heaviest lones are most reluctantly forced to approve Bombing. we are most reinctantly forced to apply in the enemy the bombins policy which he has applied to us." Livut. Gen. Smuth, former commander of the exception against German East Africa, today declared in an address to the president of the chambers of commerce of the United States.

"Defeated on the hattlefield and balked in the submarine campaign, Germany new is in impotent rage more and more striking at us through our noncombatants, through our noncombatants, through our noncombatants, through our some and children." Actial war, fare against defeaseless was the new Seemedy, I look upon these devel-

Work on Locomotives

For France Is Rushed

For France Is Rushed
Washington, D. C., Oct. 4.—
American becomotives for war
wervice in France are being manufactured at the rate of 28 a day.
The first locomotive was turned
out of the r o s 20 d vs after
the patterns were accepted. Orders have been given for 558 of
these focomotives and for more
bunn 3009 standard gaze freight
cars. Narrow gaze equipment for
use along the battle front has
also been ordered.

Especially designed boilers,
known as "experienters," are bebug placed in these locomotives
In all other ways they are similar to the locomotives hunt for
the English government.

The locomotive is not of the
type used in this country. On
roads where the heaviest type of
engines in this country would
had 90 londed tars, it is painted
battleiship gray and marked with
the lotters, "It S.A." The locomotive weighe about 155,400
gounds, with a tender weighing
That cars for use by the Amerlean armies in France have three
times the capacity of the standard stage cars used by the French
railway.
